

Our Speakers

Bob Walters, SPHR

Discover “hidden treasures” among the ranks of your leadership crew. We will explore a ten-year adventure in strategy, with the development of a positive workplace initiative. This map helped navigate the rough waters of a merger, union organization drive, benefits takeaways, and ultimately leading to some pretty smooth sailing. Human Resources interventions developed along this journey have led to strong leadership, an engaged workforce, and the realization that leadership is the key to unlocking the treasure chest! This presentation will also include some HR “Chanties” from the Healthcare and HR Tunes Collection!

Short Fuse Interactive, Inc.

Activating Scenes are created by and for participants based upon true stories and questions that arise from working experience; they help reveal, clarify, and celebrate the unique stories in our workplaces. By entering into this work, participants are better prepared to work together in deeper connection and appreciation for one another, which often results in more effective behaviors and beneficial solutions.

Short Fuse Interactive Inc. brings the power of theatre into experiential training formats in a variety of business and educational settings. Facilitators provide training in leadership, communication, diversity, sexual harassment, and hostile work environment, as well as stress management, sales and customer service.

Masterpieces in Health Care Leadership

Authors Vince Pelote and Lynne Route will present numerous Best Practices from health care organizations and how one department can change the face (and reputation) of an entire organization. The Introduction of their book begins: “This is a book of power. When we say power we are referring to powerful actions that positively impact others and to use the power to influence others at very deep levels. We have a lifelong passion to help others in terms of what they want to achieve and aspire to.” MSHHRA will help subsidize the purchase price if participants are interested in obtaining a copy of their book, printed by Jones and Bartlett.

Sebasco Harbor Resort

Sebasco Harbor Resort is where fresh air breeds fresh ideas. A meeting at Sebasco Harbor Resort means a serene backdrop for productivity and focused results. You will be surrounded by the tranquil waters and soft breezes of Casco Bay in a warm, inviting campus-like environment.
